Membership Flexibility
ARRS offers more membership options than any other imaging society:
- 1-year, 2-year, and 3-year membership plans
- Online Membership or Print and Online Membership
- Learn and earn credit on your schedule, across a variety of on-demand platforms

Subspecialties
- Breast Imaging
- Cardiac Imaging
- Chest Imaging
- Emergency Radiology
- Gastrointestinal Imaging
- Genitourinary Imaging
- Musculoskeletal Imaging
- Neuroradiology
- Noninterpretive Skills
- Nuclear Medicine
- Pediatric Imaging
- Ultrasound
- Vascular and Interventional Radiology

Quality Education You Can Trust
The first radiological society in North America, ARRS has been committed to improving health care by advancing the science and practice of radiology for more than a century. As part of our dedication to imaging education in all its forms, ARRS members have on-demand, cross-platform access to education across all subspecialties—so you can choose how and when you want to learn.

Advantages of ARRS Membership:
- Unlock more than 1,000 hours of complimentary education across all subspecialties of radiology
- You set your pace and choose your learning style from a variety of educational tools
- Gain practical insights for daily practice to improve your diagnostic skills
- Satisfy your ABR MOC requirements with scores of no-cost CME/SA-CME opportunities
- Access new learning every month across multiple platforms at no additional cost
- Save up to 50% on supplemental education, including the 2023 ARRS Annual Meeting, April 16–20, 2023

1,000+ hours of education
Members have access to more than 1,000 hours of education, covering all subspecialties of radiology. Strengthen your practice-based knowledge by making ARRS your medical imaging society.
American Journal of Roentgenology

The official journal of the American Roentgen Ray Society, the American Journal of Roentgenology (AJR) is the world’s longest continuously published general radiology journal. Recognized as a leader in the field for over 100 years, the “yellow journal” is for medical imaging professionals who need clinically useful information, as well as cutting-edge research.

AJR delivers the latest original research and clinical perspectives to enhance your imaging practice:

- 8 CME/SA-CME credits available every issue
- Accepted Manuscripts published online first, giving you rapid access
- Podcasts to hear overviews of topical articles
- Author Videos showing you additional perspectives
- Visual Abstracts to get the gist of timely research
- Enhanced focus on clinically useful articles dealing with radiologists’ daily work
- AJR Collections featuring current content compilations

Listen in as our team of resident and fellow Podcast Editors critique articles and provide synthesized overviews of timely research from the “yellow journal” for in-training and practicing radiologists alike.

Subscribe through Apple Podcasts, Google Play, Spotify, or your favorite podcast service to get the latest episodes delivered straight to your Apple or Android device.

*The American Roentgen Ray Society (ARRS) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education activities for physicians. The ARRS designates this journal-based CME activity for a maximum of 1.00 AMA PRA Category 1 Credit(s)™ and 1.00 American Board of Radiology, MOC Part II, Self-Assessment CME (SA-CME) credits. Physicians should claim only the credit commensurate with the extent of their participation in the activity.*
Quick Bytes
Micro-learning for CME on the go!
Quick Bytes are 20-minute videos on specific topics in radiology for CME anytime, anywhere. No need to answer questions—simply watch the video, fill out a brief survey, and CME will automatically be logged in your ARRS Credit Transcript.

Here are just a few of our short lectures available as ARRS Quick Bytes:
- Update of Gadolinium Deposition and Screening Breast MRI
- Dual-Energy CT Applications in Thoracic Imaging
- MR Imaging of Diffuse Liver Disease
- Update on Prostate Cancer Molecular Imaging
- CT of Hip Replacements: What Can We See?
- Trigeminal Neuropathy vs. Trigeminal Neuralgia
- And more!

Web Lectures
Learn from expert faculty on demand. ARRS Web Lectures are packed with practice-based information to advance your performance. New Web Lectures are released monthly and cover a variety of topics and subspecialties, including:
- Commonly Missed Diagnoses in Musculoskeletal Imaging
- Essentials of Abdominal and Peripheral Vascular US
- CNS Tumors and Mimics
- Crash Course in Obstetric and Gynecologic US
- Emergency Thoracic Imaging
- MR Imaging of the Hip and Pelvis
- And more!

InPractice
Our flagship member publication, ARRS InPractice provides trusted insights for the practicing radiologist—both in print and online at ARRSinPractice.org. Featuring experts in the field detailing emerging innovations and debating provocative subjects directly affecting clinical and commercial imaging, each issue also updates members on the latest ARRS news, educational programs, and professional development opportunities.
**AJR Live Webinar Series**

Experience another dimension of the “yellow journal” with credit. *AJR* Live Webinars feature leading authorities discussing some of *AJR*’s most controversial, cutting-edge articles—broadcasted each month, live and online, with CME.

Here are some of our most recent presentations:

- Pancreatic Cysts: Review of Management Recommendations and Controversies
- Update on Contrast-Enhanced Digital Mammography and the Utility of Targeted Ultrasound in Predicting Malignancy
- Minimally Invasive Breast Procedures: Practical Tips & Tricks
- Lung Cancer Screening Update: Management of Suspected Infections and Inflammatory Findings on LDCT
- And more!

**Practice Quality Improvement Templates**

Modified to match the ABR’s new requirements, ARRS PQI Templates provide you with essential information for improving daily practice and refining patient care—modules include:

- Implementing Radiology Reports
- Radiology Patient Satisfaction Survey
- Managing Adverse Iodinated Contrast Reactions
- And more!

“ARRS speaks to almost everything that a practicing radiologist needs to know.”

—Erik Paulson, MD
Save 20% on Online Courses with coupon code GUIDE22

ARRS members receive discounts on all Online Courses, and ARRS has more titles than ever before—all taught by experts across the spectrum of radiology. Earn credit at your own pace and continue to access videos for up to 10 years. Here are some of our most popular Online Courses:

**Strategies to Overcome the Most Common Misses in Clinical Practice**

Earn 26.5 CME and SA-CME Credits

This Online Course will discuss how to implement practice-based strategies for turning errors into opportunities in both acute and routine imaging settings.

ARRS Member price: $745
ARRS In-Training Member price: $375
Nonmember price: $995

Imaging in the ED: A Practical Update of Emergency Radiology

Earn 29.5 CME and SA-CME Credits

Reevaluate the present state of imaging and protocols for a variety of suspected or known disorders in emergency settings. This course includes an accompanying book shipped at no additional cost.

ARRS Member price: $745
ARRS In-Training Member price: $375
Nonmember price: $995

Practical Dual-Energy CT Throughout the Body

Earn 25 CME and SA-CME Credits

Proven useful in a wide array of applications—specific clinical indications and common incidental findings alike—this Online Course covers the equipment and protocols to effectively utilize this modality in everyday practice. This course includes an accompanying book shipped at no additional cost.

ARRS Member price: $745
ARRS In-Training Member price: $375
Nonmember price: $995

**Popular Online Courses**

- Strategies to Overcome the Most Common Misses in Clinical Practice: The ARRS designates this enduring material for a maximum of 26.5 AMA PRA Category 1 Credit(s)™ and 26.5 American Board of Radiology, MOC Part II, Self-Assessment CME (SA-CME) credits. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

- Imaging in the ED: A Practical Update of Emergency Radiology: The ARRS designates this enduring material for a maximum of 29.5 AMA PRA Category 1 Credit(s)™ and 29.5 American Board of Radiology, MOC Part II, Self-Assessment CME (SA-CME) credits. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

- Practical Dual-Energy CT Throughout the Body: The ARRS designates this enduring material for a maximum of 25 AMA PRA Category 1 Credit(s)™ and 25 American Board of Radiology, MOC Part II, Self-Assessment CME (SA-CME) credits. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
Ultrasound: Core and Emerging Techniques and Concepts

Earn 29.5 CME and SA-CME Credits
Covering both conventional and advanced diagnostic techniques, this Online Course updates the latest clinical information on a variety of specialties, including abdomen, chest, musculoskeletal, and vascular imaging. This course includes an accompanying book shipped at no additional cost.

ARRS Member price: $745
ARRS In-Training Member price: $375
Nonmember price: $995

Pearls and Pitfalls in Prostate and Pelvic Imaging

Earn 8 CME and SA-CME Credits
This Online Course provides a practical overview and update on clinically relevant topics in prostate and female pelvic imaging, including solutions for implementing a robust clinical prostate program, MR protocols for the pelvis, PI-RADS v2.1, and more.

ARRS Member price: $445
ARRS In-Training Member price: $225
Nonmember price: $695

Breast Imaging Pearls and Pitfalls: Traditional and Novel Imaging Approaches

Earn 8.5 CME and SA-CME Credits
This Online Course offers a clinically focused review of recent innovations in multimodality breast imaging, including the latest developments in percutaneous biopsies, interventional techniques, screening examinations, AI, and more.

ARRS Member price: $445
ARRS In-Training Member price: $225
Nonmember price: $695

FREE Online Courses for Members
ARRS members receive select Online Courses at no cost—all part of membership. Free member Online Courses include:

- COVID-19: Prevailing Clinical, Imaging, Healthcare and Economic Issues of 2022
- Quality Improvement: Basic Concepts and Team-Based Approaches to Facilitate Change
- Radiology Payment Systems: Present and Future
- Mass Casualty Incidents: Introduction for Imagers
- Molecular Imaging and Therapy of Prostate Cancer
- And more!
Membership you can USE.
Education you can TRUST.
