Member Benefit Guide
With 400+ Credit Opportunities
Dear Colleague:

As medical imaging transforms, a trusted source for knowledge is essential. ARRS’ mission is to improve health through a community committed to advancing knowledge and skills. That is why ARRS regularly reviews and supplements the benefits of membership to provide the most extensive portfolio of timely, practical, and practice-based education. We are a community of professionals dedicated to the advancement and integrity of medical imaging.

ARRS IS YOUR MEDICAL IMAGING SOCIETY

• Use your membership to CONNECT with a network of accomplished experts from an array of subspecialties. ARRS provides a unified community of diverse medical imaging professionals.

• Use your membership to LEARN with more than 400 CME and Self-Assessment credit opportunities available free with membership. Participate in a Web Lecture, stay informed with AJR, or explore one of our many online learning tools.

• Use your membership to ADVANCE your career and the profession along with more than 20,500 radiology professionals from around the world through supported research and fortified continuing medical education.

We hope you enjoy the vast array of benefits and opportunities available with your ARRS membership.

Sincerely,

Erik K. Paulson, MD
Chair, Membership Committee
As the healthcare industry evolves and medical imaging becomes increasingly competitive, ARRS remains steadfast in our commitment to quality education for the improvement of patient care and outcomes. For more than 100 years, ARRS has done just that—we provide trusted, practice-based education and have since the beginning.

Subspecialty Areas
ARRS knows that you need a variety of educational opportunities to maintain your certification. That’s why we provide an array of learning opportunities across all subspecialties of radiology.

- Abdominal Imaging
- Breast Imaging
- Cardiac Imaging
- Chest/Pulmonary Imaging
- Emergency Radiology
- Gastrointestinal Imaging
- Genitourinary Imaging
- Mammography
- Musculoskeletal Imaging
- Neuroradiology
- Nuclear Medicine
- Pediatric Imaging
- Radiation Oncology
- Ultrasound
- Vascular/Interventional Imaging
- Women’s Imaging

Mission Statement
The mission of ARRS is to improve health through a community committed to advancing knowledge and skills in radiology.

Accreditation
ARRS is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians, and has received the highest level of accreditation, Accreditation with Commendation. ARRS has also been granted Deemed Status by the American Board of Radiology (ABR).

Meeting Your Educational Requirements
New & Enhanced Member Benefits
When it comes to professional membership, you have choices. That’s why ARRS provides its members with a comprehensive portfolio of practice-based education across all subspecialty areas of radiology.

Members have FREE access to 400+ CME and Self-Assessment credit opportunities annually using a variety of delivery methods—from a subscription to one of radiology’s most prestigious journals, AJR, to Web Lectures and PQI Templates.
The monthly *American Journal of Roentgenology (AJR)* is a world renowned, peer-reviewed journal with a worldwide circulation of close to 25,000. For more than 100 years, *AJR* has been recognized as one of the most respected specialty journals in the world.

*AJR* brings you up-to-date, original research and clinical perspectives to help you in your daily practice in diagnostic and medical imaging:

- Original Research
- Reviews
- Clinical Perspectives
- Technical Innovations
- Opinion Papers
- Letters to the Editor

**AJR Online**

*AJR Online* includes all of the content that is published in the print journal as well as supplemental data such as motion studies and tables. It also allows you to access expanded features not available in the print version, such as the new *Collections* feature, with up-to-date, topical content compilations. Each *AJR* Collection contains content published in *AJR* grouped by topic, modality, article type, and/or subspecialty, personalizing the Collection to you! Each month, *AJR* Online also offers readers additional articles, including video articles.

**NEW COLLECTION**

**Dose Reduction for Children and Adults Collection**

This Collection features premier articles that discuss the pros, cons, and how to’s involving imaging techniques that use ionizing radiation, how to minimize the dose administered, or how and when to use an imaging technique that does not use radiation. This Collection also touches on the risk of adverse events associated with the amount of iodine administered as contrast material during these imaging techniques. This Collection will be updated regularly, so check back often.

**More AJR Collections**

- Emergency Radiology
- Best Practices
- Non-Interpretive Skills

**96 CME and Self-Assessment Credits Annually**

In each issue, this prestigious publication offers 8 CME and 8 Self-Assessment credits exclusively for members. Each article is peer-reviewed and reviewed further for educational credits.

“The *American Journal of Roentgenology* is my favorite journal.”

— Claremont Carter, MD
InPractice

As our quarterly flagship publication, ARRS InPractice is your consummate resource for the latest radiology news and advice. Each issue focuses on subjects essential to the clinical and business aspects of your practice, including such timely topics as radiation safety practice, strategic business management, communication with patients, and more. In addition, each issue provides members with the latest news and information regarding ARRS programs and educational opportunities to enhance professional skills and careers.

InPractice Insight

InPractice Insight is a monthly e-newsletter for ARRS news, including member benefits, Annual Meeting details, and educational offerings. It also showcases original articles, including exclusive interviews with renowned radiology experts on the latest topics.

AJR InBrief

Exclusive to ARRS members, AJR InBrief is your monthly e-newsletter featuring an interview with an AJR author, links to can’t-miss articles in the current issue of AJR, and related member benefits.

"Roentgen Ray has never failed to be new."
— Christopher Straus, MD
Web Lectures

Free for Members with CME and Self-Assessment Credits

Free with membership, ARRS Web Lectures bring information from the best educators and leaders in the field right to your desktop, all at your convenience. Each Web Lecture includes slides and audio, along with an assessment that can be completed to obtain CME and Self-Assessment credits.

A variety of topics and subspecialties are available, including:

- Controversies on Management of High Risk Breast Lesions
- Emergency Radiology: Thoracic and Abdominal Trauma
- Essentials in Renal and Hepatobiliary Scintigraphy
- Hepatic Cross-Sectional Imaging
- HRCT: Airway and Smoking-Related Lung Disease
- Interventional Radiology for Diagnostic Radiologists
- Knee Magnetic Resonance Imaging
- Pediatric Chest Imaging
- Stroke: Pediatric and Adult Patients

ARRS PQI Templates will provide you with the essential information for practice quality improvement.

PQI is based on the principles of the quality improvement (QI) cycle. This cycle consists of four basic steps:

1. **Plan:** Select an area of practice to improve, collect data, set goals/predict outcomes.
2. **Do:** Do the project, record data, document results.
3. **Study:** Review the results and compare to your predications/goals you set. What did not work well? Why?
4. **Act:** Adjust the plan, document which changes you made and why, restart the cycle until goal is achieved or continue for quality assurance.

PQI stimulates more quality improvement initiatives and provides documentation of quality improvement in radiology. Improve your daily practice and patient care.
**Goldminer® CME**

**Earn CME for Image Searches**
ARRS GoldMiner® provides instant access to nearly 500,000 biomedical images from 760 peer-reviewed journals. Designed to provide you with clinical answers when you need them, this online tool allows viewers to search for images by findings, anatomy, imaging technique, patient age, and gender.

**Earn Credit at the Point of Care**
Members earn 0.5 AMA PRA Category 1 Credit™ for each self-directed journal search conducted through ARRS Goldminer® CME.

**SHERPA®**

**Your Personal Guide to Peak Performance**
ARRS SHERPA® is an online, interactive tool designed to help you identify your knowledge gaps. Answer questions correctly and progress up the mountain, and as you encounter pitfalls, ARRS SHERPA® will guide you to resources to fill in those gaps.

With ARRS SHERPA® you can:
- Create your own unique profile based on your daily practice of radiology.
- Leverage free member resources tailored specifically to your educational needs.
- See a summary of your overall progress and how you compare to other participants.
- Enjoy a competitive, online tool that allows you to learn at your own pace.

"A wonderful community of radiologists that shape and change the world." — Tanya Moseley, MD

**COMING SOON—SHERPA® CME!**
Member-Exclusive Scholarships, Awards, and Fellowships

ARRS’s mission is to advance patient care by enabling the creation and exchange of knowledge and information in the field of radiology. The Roentgen Fund enhances that mission by sponsoring educational, scientific, and research initiatives that contribute to excellence in radiology and medicine. In its nearly 20-year history, The Roentgen Fund has granted millions of dollars to hundreds of emerging and talented physicians and residents.

Today, the generosity of the Fund’s donors is channeled to every corner of the globe through seven member-exclusive scholarship and fellowship programs:

ARRS/Elio Bracco Scholarship

Up to two full-time faculty per year are funded by the ARRS/Elio Bracco Scholarship to pursue scientific research in radiology.

ARRS Leonard Berlin Scholarship in Medical Professionalism

The Berlin Scholarship is an award of $100,000 to develop expertise in medical competencies and nonclinical skills, such as medical ethics and quality improvement.

ARRS/ASNR Scholarship in Neuroradiology

Funded by the Roentgen Fund in conjunction with the ASNR Foundation, every two years the ARRS/ASNR Scholarship awards $150,000 for research related to brain, spine, and head and neck imaging.

The Distinguished Educator Award

This award recognizes a dedicated individual who provides education that results in improved competence and performance, which ultimately leads to improved patient outcomes.

The Melvin M. Figley Fellowship

This fellowship provides one radiologist practicing in the United States and Canada per year with a four-week opportunity to work closely with AJR editors and staff to learn the fundamentals of medical publishing.

The Lee F. Rogers Fellowship

The Rogers Fellowship in radiology journalism is awarded each year to a radiologist practicing outside the United States and Canada. It provides a four-week opportunity to work closely with AJR editors and staff to learn the fundamentals of medical publishing.

Residents in Radiology Awards

These awards are presented each year to three residents and fellows based on papers related to the clinical application of radiological science and the discipline of radiology.
In-depth and cost-effective publications designed to enhance your knowledge and skills.

Online Courses
Earn Credit Anytime, Anywhere

ARRS Online Courses are composed of recorded lectures delivered by accomplished leaders in radiology. Courses are broken into modules by topic, which can be viewed over the lifespan of the course, so you can earn your educational credit at your convenience.

Find more Online Courses, plus Books with Credit and Case-Based tools online! www.arrs.org/education

MEMBERS SAVE UP TO 50%!

MULTISPECIALTY AFTER-HOURS IMAGING
Online Course Package with Book

The paradigm shift from volume to value has resulted in an ever expanding provision of after-hours imaging services. This course will focus on the spectrum of scenarios that a radiologist working after hours may encounter.

ARRS Member price: $495
ARRS In-Training Member Price: $249
Nonmember price: $999

PROSTATE MR IMAGING
Online Course

Learn the latest advancements and techniques in prostate MR imaging.

ARRS Member price: $395
ARRS In-Training Member Price: $199
Nonmember price: $899

GET THE STANDALONE BOOKS WITH CREDIT!

“That’s really the hallmark of the Roentgen Ray, we help each other build a better profession.” —Ruth Carlos, MD
CASE-BASED IMAGING REVIEW
Online Course Package With Book

Hone your diagnostic skills with 275 cases across 11 subspecialties, and receive a structured review of all of the areas of radiology including quality and physics.

ARRS Member price: $695
ARRS In-Training Member Price: $349
Nonmember price: $1199

THE RADIOLOGY M AND M MEETING
Online Course Package With Book

Discover lessons learned from peer-reviewed data, illustrating commonly recognized errors and mimics about which all radiologists should be aware of.

ARRS Member price: $695
ARRS In-Training Member Price: $349
Nonmember price: $1199

BODY MRI
Online Course Package With Book

Learn state-of-the-art body MRI techniques and practical applications of those techniques to improve your clinical performance.

ARRS Member price: $695
ARRS In-Training Member Price: $349
Nonmember price: $1199

BREAST IMAGING
Online Course

This newly updated course includes discussion regarding advanced techniques in breast imaging, the principles of tomosynthesis, and more.

ARRS Member price: $495
ARRS In-Training Member Price: $249
Nonmember price: $999

PITFALLS IN CLINICAL IMAGING
Online Course Package With Book

Gain insights into the spectrum of common and unusual diagnostic imaging pitfalls and improve your performance.

ARRS Member price: $695
ARRS In-Training Member Price: $349
Nonmember price: $1199

CHEST IMAGING
Online Course

Understand the clinical-radiographic correlations for assessing airways and lungs, proposed guidelines for assessing pulmonary nodules, and more.

ARRS Member price: $395
ARRS In-Training Member Price: $199
Nonmember price: $899
CASE-BASED TOOLS

Advance Your Diagnostic Skills

Each of these 2015, 2014, 2013, and 2012 publications include challenging diagnostic radiology cases covering 11 broad categories of disease and technology. Brought together by the best radiology educators, these publications will present challenges to hone your diagnostic skills.

Readers will be able to improve their ability to detect, assess, and diagnose various conditions and diseases using multiple imaging techniques.

COMPREHENSIVE CASE REVIEW
Earn CME

Test your ability to determine the correct diagnosis of a variety of diseases and disorders, and compare your results to your colleagues’ with this online educational activity.

Comprehensive Case Review collections include 25 cases with in-depth information to advance your skill and knowledge. Select your collections by subspecialty or order a “case shuffle” of randomly selected cases. Each of the 25 cases in your collection will include:

- Patient history
- Imaging findings
- Differential diagnoses
- Teaching points
- References

2 AMA PRA Category 1 Credits™ per 25 cases

ARRS Member:
$25/collection of 25 cases
Nonmember:
$65/collection of 25 cases

FREE TO RESIDENTS AND FELLOWS
ARRS in-training members receive free and unlimited access to case reviews to assist them in preparing for exams and active practice.

“ARRS is a premiere radiology education organization.” —Kumar Sandrasegaran, MD
Volunteer Opportunities with ARRS

You can make a difference with ARRS and contribute to the radiology profession in a variety of ways:

- AJR Manuscript Reviewer
- Contributor to ARRS InPractice
- Abstract Reviewer
- Education Accreditation Compliance Committee
- CME Review Subcommittee
- Educational Evaluation Subcommittee
- MOC Subcommittee
- Outcomes and Quality Improvement Subcommittee
- Program Committee
- Scientific Program Subcommittee
- Instructional Courses Committee
- Membership Committee
- Publication Committee
- Corporate Relations Committee
- International Outreach Committee
- E-Learning Committee

Looking for a new job?
The ARRS Career Center is free for members and offers:

- Advanced job searching options
- Increased resume exposure
- New job e-mail alerts
- Ability to immediately apply for positions

NEED TO HIRE?
The Career Center also offers targeted advertising for radiology industry job openings, plus:

- Quick and easy job postings
- Quality candidates
- Simple pricing options
